

emf solutions

Are you concerned that **mobile phones** or **Wi-Fi radiation** might be **harming** you?

Perhaps you live near a cell phone mast and are worried about the electromagnetic fields (EMFs) or microwaves?

Do you suffer from unexplained:
*headaches, dizziness, memory loss, fatigue, sleep disorders,
prolonged flu/colds, mood swings, stress and/or joint pain*
when near mobiles/tablets/routers/phone masts/electricity pylons etc.?

emf solutions

EMF Solutions is a not-for-profit organisation run by parents and professionals in the Bishop's Stortford area. We provide the latest news & information on the negative health effects from EMFs and how to create a safer/low EMF environment for you and your family.

Our website is packed full of useful information, including scientific references highlighting the biological effects of EMFs, which we think you will find interesting.

Did you know that...

- Modern wireless products, e.g. mobile phones, tablets, Wi-Fi and Smart meters radiate microwaves
- **Microwaves or EMFs are classified as 2B carcinogen, similar to DDT, lead and diesel fuel**
- Over 3000 peer reviewed scientific papers suggest biological effects from low intensity EMFs
- **Long term exposure to microwaves may cause; cancer, tumours, cognitive impairment & DNA damage**
- UK Department of Education states that children under 16 should not use cell phones except in an emergency
- **French law banned Wi-Fi from nurseries and Taiwan banned tablet use by toddlers**
- Ex-Nokia & Microsoft bosses warn of the health risks, whilst Steve Jobs did not allow his children to use such technology
- **Doctors have cautioned pregnant women about using wireless products**
- Nokia paid \$250,000 compensation to a Brazilian worker who developed a rare bone cancer and the Italian High Court has ruled a brain tumour was caused by a mobile phone
- **Mobile phone manuals state that the unit must be kept a "safe distance" away from the user**
- Swisscom AG patent admitted non-thermal exposure to wireless radiation is "genotoxic" and causes "clear damage to hereditary material"
- **There are no regulations on the radiation levels from wireless products; only guidelines based on heating only - that's like saying cigarettes cause harm by burning only!**
